Ban.Q Limited, Nairobi

June - September 2019

Accomplishments

- Part of the team that developed the Ban.Q mobile application using Java.
- Played a major role in development of Barefoot Limited website

Kobby Technologies Limited, Nairobi

Software Pre Sales Attachment

May - July 2018

PROJECTS

Agribusiness app (SokoSimple)

— An android app used by farmers to sell their farm produce directly to farmers and it also offers advice and farm insert during farming.

Shopping Inventory API(Myshopping)

— ASP.Net Core API used for keeping track of buyers shopping including generating a shopping list at user request depending on what they currently have in store.

Insurance Android App

— An app used by clients to apply for different type of insurance for instance car insurance and also allows them to pay via the app

Blog (Sokosimple Blog)

— A blog that shares farming information to farmers around the country.

SKILLS

Computer Languages: Java, C#, JavaScript, PHP, SQL, HTML

Frameworks: Android Studio, Xamarin Forms, VueJS, Laravel, ASP.Net Core
